

Requirement Change Proposal RCP

Version 1.11 6 Oct. 2009 JT Thomas

This is the Potomac Valley Aquarium Society (PVAS) Breeders' Award Program (BAP) Requirement Change Proposal (RCP) form. This is to be used to request changes to the point categories for individual species, to propose a variety of a particular species for separate consideration, and to obtain waivers for minimum fry. All RCPs must be approved by the BAP committee to go into effect. Declined RCPs may be appealed to the PVAS Board of directors.

Submitter:		Date:	
BAP Approval:	Approved / Denied	Date:	
Appeal:	Approved / Denied / NA	Date:	
Effective Date:			
Species:	[The species for which the change is proposed]		
Variety:	[If a variety is to be considered, input it here]		
Category:	[Current 1-6]	Points:	[Current 10-50]
		Min. Fry:	[10]
Catch All:	[If this species is included in a catch-all categories, name it here.]		
Proposed Change	<p>Describe the proposed change:</p> <ul style="list-style-type: none"> • Add an entirely new species, and propose a Category & point value for it. • Change the category and point value for an existing species, either separately named or included in one of the catch-alls • Propose a variety of a species (other than albino) for separate point award. • Request a lowering of the minimum required fry for a species. <p>Describe the request precisely, and if you present multiple options, clearly identify them.</p>		
Justification	<p>Support your request for change here.</p> <ul style="list-style-type: none"> • Why should this change be made? • Does this species usually produce fewer than 10 fry? • Is this variety of the species significantly more difficult to breed or raise, or at the very least, does it have different breeding habits? • Is this fish significantly more (or less) difficult to breed than the other fish of it's current category? <p>Citations of academic papers and breeder testimonials are useful and welcome, and can be attached to this form if short, or cited here and provided separately if long.</p> <p>Ultimately, the goal is to persuade the BAP committee to agree with your change, so be persuasive. Use as much space as you like, and feel free to attach pages.</p>
